## Health & Safety Policy

### General Statement of Policy

It is the policy of Task Engineering Solutions Limited to provide and maintain safe and healthy working conditions, equipment and working systems for all our employees, and to provide such information, training and supervision as they need for this purpose. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement the safety policy are set out below.

The support of all employees of Task Engineering Solutions Limited is required to achieve the objectives of the policy.

The board of Task Engineering Solutions Limited has overall responsibility for the formulation and review of Task Engineering Solutions Limited's Health & Safety Policy and will periodically monitor its implementation and development within its operating Divisions.

Signed:  .....

Date: September 2020

Director

# Health & Safety Policy

## **Task Engineering Solutions Limited**

### **HEALTH & SAFETY POLICY**

#### **RESPONSIBILITIES**

Overall and final responsibility for health and safety in Task Engineering Solutions Limited is that of:

#### **Managing Director**

At the following premises:

*Head Office;*

*Task Engineering Solutions Limited*

*Izabella House*

*24-26 Regents Place*

*Birmingham*

*B1 3NJ*

*Email: [office@taskengineeringsolutions.co.uk](mailto:office@taskengineeringsolutions.co.uk)*

The following are responsible for the implementation of the policy:

The Managing Director is the appointed person responsible for Health & Safety and in his absence, The Health and Safety will be responsible as his deputy.

Each Department will have a trained member of staff responsible for safe working systems within their respective areas and in addition will be responsible for:

- Risk assessment within their departments.
- Weekly checks for hazards within their departments.
- Identifying training needs within their departments.

All employees are responsible for co-operating with Departmental Managers, Health & Safety Officer and Directors to achieve a healthy and safe workplace and to take reasonable care of themselves and of others.

## Health & Safety Policy

If an employee notices a health or safety problem which they are not able to put right, they should tell one of the appropriate persons named above.

Any health and safety issues which may affect this policy should be raised at the management meetings and all employees informed of changes via a team brief.

### **GENERAL ARRANGEMENTS**

#### **First Aid & Accident Reporting**

First Aid boxes are located in all our offices and the names of all the qualified first aiders are displayed on the notice board at various points around the building.

The persons responsible for ensuring the first aid boxes contain the correct equipment are:

The trained First Aiders

The accident book is located in the office.

When an entry has been made in the accident book then an internal Accident & First Aid report form must be completed by the attending First Aider or Departmental Manager and forwarded to the Health & Safety Officer.

The qualified First Aiders are responsible for recording accidents in the accident book and informing the Health and Safety officer to ensure they are reported to the enforcing authority.

**NOTE:** The client is responsible for recording accidents to temporary staff working on their premises/site.

Consultants should seek to obtain a photocopy of client's accident reports, containing any of our temporary staff, and attach them in the relevant section on the recruitment database.

### **GENERAL FIRE SAFETY**

The Health & Safety Officer is responsible for visual checking of escape routes, fire extinguishers, alarms and alarm panels on a regular basis. Alarms will be checked quarterly and then twice yearly by a competent company or the original installer.

Overall fire inspection shall be carried out by the Fire Service according to their schedule.

Basic fire/safety instruction shall be given to all employees during the induction course.

In addition, all employees are responsible for ensuring that escape routes are kept clear of obstructions, fire doors kept closed etc.

A fire drill will be held twice a year.

All fire extinguishers will be checked and serviced annually by a recognised company.

### **VISITORS, CONTRACTORS AND TEMPORARY STAFF WORKING ON PROMAN PREMISES**

All visitors, contractors and temporary staff working on our premises must sign the visitor book on arriving and be issued with a visitors' badge. When leaving the premises all visitors, contractors and temporary staff must enter the time of departure and return their visitor badge to reception.

## Health & Safety Policy

The Health & Safety Officer is responsible for ensuring the health and safety of all visitors, contractors and temporary staff working on the premises, and where applicable will explain Task Engineering Solutions Limited's Health & Safety Policy.

### **TEMPORARY WORKERS & CONTRACTORS SUPPLIED BY TASK ENGINEERING SOLUTIONS LIMITED TO CLIENTS**

Temporary workers and contractors supplied by Task Engineering Solutions Limited will be subject to the Health & Safety Policy of the Client and all of the Client and Worker contractual documentation makes this clear. All recruitment Consultants, Team Leaders and Departmental Managers are responsible for making sure that Workers and Clients are aware of this.

Task Engineering Solutions Limited has a responsibility to the Worker to inform him/her about the nature of the work to be carried out including any conditions that relate to the Health and Safety of the Worker. This information is recorded on a "Risk Assessment Sheet" and verbally relayed to the Temporary Worker at the time of assigning to the Client.

A copy of the "Task Engineering Solutions Limited's Health and Safety Policy for Temporary Workers and Contractors" is included in the terms of engagement sent to the Temporary Worker or Contractor.

### **CHEMICAL HAZARDS**

Where Task Engineering Solutions Limited buys substances that may create a hazard to health, any hazard sheets accompanying these will be kept by the Health & Safety Manager who will be responsible for ensuring that a thorough assessment regarding the use of such substances has been undertaken and that any employees who may be exposed to such substances are provided with adequate information regarding the risks, safe methods of use and effects of over exposure.

### **DISPLAY SCREEN EQUIPMENT**

All users of display screen equipment shall be provided with adequate information relating to the correct use of such equipment.

All users shall be advised of their right to request an eyesight test for which Task Engineering Solutions Limited shall pay.

All users' workstations shall be assessed annually, and any defects remedied as soon as practical.

### **HOUSEKEEPING AND PREMISES**

Our rules are as follows:

Cleanliness is essential.

Cleaners are employed five days per week for the purpose of ensuring that the relevant premises are kept clean.

## Health & Safety Policy

### **WASTE DISPOSAL**

Waste and rubbish are collected each week on Fridays.

### **SAFE STACKING AND STORAGE**

The Health & Safety Manager is responsible for ensuring that any items stored on the premises are stored safely.

### **ELECTRICAL EQUIPMENT**

All employees should carry out a visual inspection of plugs and cables and any faults are to be reported to the Health & Safety Manager.

All employees must ensure that wires and extension leads do not create a hazard.

Any apparent fault on electrical equipment should be reported to the Health & Safety Manager.

An electrical contractor will carry out thorough checks of the electrical installation and equipment.

The Health & Safety Manager will organise this.

### **PLANT, EQUIPMENT AND BUILDING PREMISES**

The Health & Safety Manager is responsible for ensuring that plant, equipment and building premises are kept in a safe condition, and, in respect of equipment that guards are kept in position. All employees must report any defects and plant, equipment and building premises to the Health & Safety Manager immediately who will ensure that such defects are remedied as soon as reasonably practicable.

### **MAINTENANCE OF PLANT AND EQUIPMENT**

The Health & Safety Manager is responsible for the maintenance of gas, electric and other equipment. Any apparent faults should be reported to the Health & Safety Manager.

Any employee noticing the smell of gas on the relevant premises will report this immediately to the Gas Board (0161-864 3330), from whom advice should be sought on actions to be taken until an investigation can be arranged. The above number is for all emergencies / gas leaks in our immediate area.

### **CONSULTATION OF HEALTH & SAFETY**

Any suggestions on improving health and safety should be made to the Health & Safety Manager.
